

ALGERIA

“

The beginning of 2012 marked the start of the activity in Algeria.

The beginning of 2012 marked the start of the activity in Algeria. Having essentially bet in partnerships with local businessmen, at the moment we are carrying out several contracts, diversifying the type of works, which range from hotels, luxurious housing to the health sector.

With our head office recently opened in the capital of Algeria, we currently have a team of about 60 employees, between expatriated and locals. With experienced and senior staff, we try to train the new Algerian employees so that they understand the Casais "spirit", in order to try to considerably increase the number of local employees in the short term.

In 2014, we bet in the creation and organization of a technical structure, able to "embrace" the challenges lying ahead. We invested in material and equipment, predicting that 2015 will be the year for the affirmation of Casais in this market.
