

ABOUT

Today, Casais Group is one of the largest in the construction sector in Portugal.

Casais was established on 23rd May 1958 under the name "António Fernandes da Silva & Irmãos, Lda". Later, in 1991, it adopted the **Master António Casais** family's nickname as its brand, family who until today and for 60 years has administrated the company, becoming **Empreiteiros Casais de António Fernandes da Silva SA**.

In 1994, we began the internationalization process in Germany.

In 2008, we changed the company name to **Casais - Engenharia e Construção, S.A.**, marking its five decades of activity.

Today, Casais Group is one of the largest in the construction sector in Portugal, maintaining a family-owned enterprise characteristic.

With a consolidated presence in the domestic market, the **internationalization** initiated in 1994 in Germany is a pillar of the strategy of organic growth, supported by local partnerships and alliances.

The Group currently operates in 16 countries: **Portugal, Germany, Angola, Belgium, Gibraltar, Holland, France, Morocco, Mozambique, Brazil, Qatar, Algeria, UK, Spain, United Arab Emirates and EUA**, but in our internationalization history we have also operated in other countries such as Russia, Kazakhstan, China, and Cape Verde.

The Future is mainly driven by continued growth in the national market, by the focus on internationalization, consolidating our presence in the countries where we are currently working and studying our entry into other countries, but also by focusing on the newer business areas of the group which are Environment, Energy and Services.
