

CarpinAngola presence at the 3rd Expo-Indústria and Projekta 2018

19.11.2018

Between November 14 and 17, CarpinAngola participated in the 3rd Expo-Indústria and Projekta 2018, which took place in the ZEELB (Special Economic Zone) in Viana, Luanda. In this event, public and private institutions, national and foreign companies from two of the main sectors for the economic development of Angola, were able to unite synergies and knowledge, with the common goal of "Growing and Make Growing", by increasing domestic production, the decline in imports and the consequent increase in the supply of employment. The CarpinAngola stand has been featured several times, not only because it is the only carpentry present at the event, but because it has aroused the curiosity of the media and also members of the Angolan executive.
